

THE HOTTEST FOOD TREND OF 2011

MEZZALUNA'S EXTRAORDINARY CAKE POPS

You may have seen these curious, little, round balls-on-a-stick at Starbucks, but they don't hold a candle...well, see for yourself! Our whimsical, delectable, gorgeous cake pops are sweeping the trendy Portland event scene. We can't make them fast enough.

Cake pops can be displayed in dozens of ways. We created a 7-foot tall tower of 350 pops for a recent company's 30th anniversary in the five colors of their logo.

The pink and green "cake-like" display below is for a baby shower and will have pops in pale pink, deep pink and lime green next week. We're also creating a stunning display tower for wedding pops in white and silver loaded with bling.

Flavor Combinations Available

- Vanilla bean
- Red velvet
- Bittersweet chocolate-mint
- Lemon pound cake
- Spice cake
- Orange cream
- Fresh strawberry

Contact us for a bid. We'll design an unforgettable, show stopping display that your guests will be talking about for a long time.
